

TEA STORE MOVES TO NEW QUARTERS

Atlantic and Pacific Company Will Have Formal Opening Tuesday.

Modern and up to date in every respect, is the verdict of those who have visited the Atlantic and Pacific Tea Company's new store at 607 Seventh street northwest.

The new establishment will be formally opened Tuesday, June 1, although it is expected that it will be ready for business Friday. Located directly in the center of the business section of the city, the store is so situated as to command a larger trade than ever before in the history of the Washington branch.

The store will offer to its customers a complete new line of teas, coffees and fancy groceries. Every device for attending to the wants of critical customers has been supplied. Shelves are so arranged as to display to the best advantage the large stock.

A butter cooler, said to be the largest in the city, and which contains a device for cutting and weighing butter, is one of the features.

The storeroom is sanitary and dry, and is reached by a large freight elevator. The offices are elevated and are in the rear of the store.

A modern cash system completes the business arrangement for conducting the business.

The general color scheme of the store is green, an innovation in tea and coffee stores, which are usually finished in red.

The Washington branch is one of the three hundred and fifty stores owned and managed by the Atlantic and Pacific Tea Company. Its manager is Pierce M. Bealer, who has been with the company since he was twelve years old, and who has held the position of manager since he was twenty-one years old. Mr. Bealer has had personal supervision of the arrangement and decoration of the new store.

MRS. NULTON'S HAT BURNS ON HER HEAD

WINCHESTER, Va., May 27.—Feathers and draperies on her large and fashionable hat catching fire from a gas jet, Mrs. Nulton, wife of Lieut. Com. Louis McCoy Nulton, U. S. N., had a very narrow escape at her home here. Unable to reach the hat pins through the flames, Mrs. Nulton rolled on the floor in her efforts to smother the fire. Her father, Edward J. Evans, rescued her just after her hair had been singed and her hands blistered.

TRAIN ON A BARGE BLOWN OUT TO SEA

Breaks From Galveston Tug. Passengers Near Death Before Rescue.

GALVESTON, Tex., May 27.—A "shipwrecked train" is Texas' latest novelty. The twenty-five passengers are ready to testify today that the novelty is not popular. They were brought into Galveston late last night after being rescued from a barge that attempted to ferry two cars and an engine of the Gulf and Interstate railroad from Bolivar Point to this city.

A sixty-mile-an-hour gale broke the cables that held the barge to the tug, and the barge was blown through the channel into the sea. The tug went in pursuit, but not until the boat went around near Fort San Jacinto did the tug furnish relief.

The passengers were taken off by means of life lines. They were drenched by huge waves that broke over the coaches.

\$412,000 INVOLVED IN SALE OF REALTY

Westover Apartment House Traded for Justice Quarters on K Street.

The biggest real estate trade of the year, involving property valued at \$412,000, has just been closed, whereby Mrs. Henrietta M. Halliday has disposed of the Westover apartment house, Sixteenth and U streets, to T. Franklin Schneider for the Department of Justice building, located at 1435 K street.

The Westover was valued in the transaction at \$200,000, while a cash bonus, in addition to the valuation placed upon the department building, brought the total amount involved in the deal to \$412,000. Story & Cobb represented Mrs. Halliday.

The Department of Justice building is leased by the government for an indefinite period at a price understood to be \$10,000 per year. The Westover is a steel-constructed apartment, containing forty-three apartments. It was built several years ago by John H. Nolan.

CUBAN REVENUES MAY FALL BEHIND

Look to Lottery for Funds to Realize Gomez's Projects.

HAVANA, May 27.—There is grave doubt among many Cuban politicians today whether the revenues for next year will meet the budget of nearly \$34,000,000, which President Gomez has just sent to Congress.

The president himself is confident that the budget is not excessive, despite the fact that it is \$5,000,000 heavier than that of the current year. The increase is necessary, the president says in his message, by reason of the unfinished contracts made by former Governor Magoon.

New sources of revenue, including an estimated \$2,000,000 from the national lottery, are counted on to meet the increase in the budget. The president's estimates of the revenues for the coming year are generally considered too high.

BANK IS TERRORIZED BY ESCAPED LUNATIC

Crazy Man Holds Up Cashier and Demands \$50,000, Threatening to Throw Dynamite Bomb—Panic Ensues Before Intruder Is Captured.

REDWOOD CITY, Cal., May 27.—An inmate of the State Lunatic Asylum at Agnew was returned to his ward today, where he is reflecting upon the glorious time he had yesterday when he terrorized Redwood City and caused a panic in the Redwood City National Bank.

The national bank was crowded with men and women when a wild-eyed man entered the counting room, and craning his neck into the cage of Cashier L. H. Behrens said in a hoarse whisper: "Give me \$50,000 or I'll blow the whole building and every one in it to high heaven with this dynamite bomb."

The stranger exhibited a bundle wrapped in a handkerchief.

Behrens tried to argue with him, and

the men and women in the place made a sudden dive for the exits. In the panic that ensued two women fainted. Behrens temporized with the man until the police had been summoned and appeared. They seized on the would-be dynamiter, handling him carefully, fearing that his bomb might drop to the floor and explode. But the bomb was merely a large piece of clay. The lunatic was returned to the asylum.

SUMMER TRIPS AFAR AND NEAR.

Summer days are coming fast. Already vacation days are being discussed in the home and in the office, and in a few weeks the annual exodus to country, seashore and mountain will have been begun.

America abounds with delightful summering places, in valley, on mountain and beside the sea—thousands of resorts whither wend the pilgrims in search of pleasure and recreation.

Pennsylvania Railroad ticket agents now have on sale excursion tickets to the greater number of these resorts; by the first week in June there will be about eight hundred points covered by Pennsylvania Railroad summer excursion tickets.

From the rock-bound bays of Newfoundland to the sunny slopes of the Virginia shores; from the White Mountains of New Hampshire to the Cumberland Mountains of Tennessee; along the forty beaches of New Jersey; even to the far coast of the Pacific Ocean, these summer resorts stand ready to entertain the transient or all-summer guest.

Any Pennsylvania Railroad Ticket Agent will cheerfully give information concerning routes and fares to these resorts, enabling summer pilgrims to plan their outing at a minimum of time and cost.
